

WORKWALL

Adaptable panel with fresh look

Using WorkWall, you can build a suitable panel for your requirements. The surfaces can be made of different types of materials; durable steel, colourful glass, acoustic Ecophon panel or 100 % Max Cotton fabric. The panel can serve as a projection surface, writing surface or notice board and it is conveniently equipped with wheels for mobility. The WorkWall panels are especially suited for rooms where permanently installed boards are not desirable or possible. A creative choice for modern spaces.

By using different colour frames, you can create a bold look to your space according to your needs. The stand is available in two designs and several colour options. Measurements of the WorkWall are W1200 x H1900 mm or W2400 x 1900 mm. Also available specialized sizes.
