

GLASS WRITING BOARDS

Minimalist and modern dry-wipe writing board for the contemporary classroom or meeting room. With concealed fixings the glass writing boards seem to float just off the wall. Manufactured from 6.0mm toughened safety glass that also features highly polished rounded edges and corners. The surface and structure of the board carries a lifetime guarantee. The glass board comes supplied with concealed 'split batten' fixings that enable either a landscape or portrait use. The weight spread function of the split battens allow the glass boards to be installed on any wall structure (including plasterboard). For use with any dry-wipe pens and erasers.
