

PROJECTO PROJECTION SCREENS

The uniquely developed TK-Team Projecto rigid projection surface cannot be damaged by an interactive pen or stylus. The perfectly flat ridged matt white surface does not create hot spots from your projector nor natural or artificial light.

Silver or black framed Projecto screens are suitable for all types of projection. The matt white surface is toughened to allow damage free interactive styli use.

Projecto surface is specially coated to allow 'quick clean'* removal of dry wipe pens. The perfectly flat matt white surface has six point fixings and is fully adjustable.

- All sizes available formatted in 4:3, 16:10 & 16:9 ratios
- Measures 15GU according to ISO 2813
- Conforms to DIN 90145 creating high uniformity and picture quality
- 3 year warranty

Two trim options available in both silver and black .

Paired magnetic dry wipe writing surfaces are available to suite boards together.

You design -we make it happen
