

SLIDING DOOR BOARDS

XL -writing surface from floor to ceiling

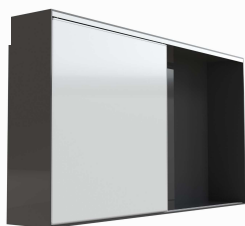

Extra large XL Sliding Door Boards can be installed from the floor to ceiling or alternatively into cabinets using a rail and an extra-strong molding and castors. The boards slide easily. Sliding Door Boards are always produced according to the intended use.

Basic -Connect the writing surfaces to the cabinet

Sliding Door Boards are always produced according to the planned cabinet size. Sliding Door Boards are installed in cabinets with upper rails and lower wheels, which makes the panels slide easily.

Basic

XL

Sliding Door Boards:

- The panels can be made of either the ceramic steel or chalk surface. Magnets can be attached to the surface.
- The Sliding Door Boards can also be produced using a projection surface, in which case a separate screen is not required.
- Contact us and we will design a Sliding Door Board system suitable for your needs.

You design – we make it happen
